

KANO LABORATORIES

MAKERS OF

KROIL®

A FAMILY OF INDUSTRIAL GRADE PRODUCTS

PREMIUM HIGH-PERFORMING PENETRANTS

When it comes to freeing corroded items in tough spaces, nothing rivals powerful, industry-proven Kroil Penetrating Oil. Used and trusted by pros and experienced DIYers alike since 1939, Kroil quickly loosens rusted nuts and bolts, frees frozen shafts, pulleys and more. Plus it's safe on all metals.

PENETRANT ORIGINAL

LIQUID AND AEROSOL
(FORMERLY AEROKROIL)

Kroil can be used on items that have been exposed to the elements or have endured the harshest conditions, resulting in rust and corrosion. Time and rust are no match for Kroil, and no space is too tight to reach, thanks to its ability to penetrate the smallest opening, thread or crevice. Kroil removes and prevents rust, cleans and lubricates, and displaces moisture.

Excellent for use in just about any environment.

Trusted Penetrant
for Over 80 Years

PENETRANT WITH SILICONE

(FORMERLY SILIKROIL)

Kroil Penetrant with Silicone has been engineered to loosen frozen metal parts and provide extra lubrication. The addition of silicone to the legendary Kroil formula results in superior penetration, lubrication and rust prevention. This proprietary blend of oils and solvents first penetrates into the tightest of spaces to break the bond of rust, and then provides lubrication at the primary level of the surface, subsequently freeing virtually any metal part.

Excellent for use in coastal areas or any place where exposure to salt and weather is a factor.

Superior Penetration with
Long Lasting Lubrication

NEW LOOK!
SAME
FORMULA!*

PENETRANT WITH GRAPHITE

(FORMERLY PENEPHITE)*

Kroil Penetrant with Graphite is a unique blend of oils, solvents and graphite engineered to penetrate the smallest gaps of corroded metals to loosen seized parts. The graphite is designed to stick to metal and provide long lasting lubrication, which will remain in place even in operating temperatures up to 700°F (371°C).

Eases the removal of large metal fasteners, components and equipment parts.

Excellent Penetration and Lubrication
in High Temperature Environments

*NEW under the Kroil brand. New look. Same formula.

APPLICATIONS

- Agricultural equipment
- Automobiles
- Bearings and bearing mounts
- Boats and marine equipment
- Bushings
- Castors
- Chains and track pins
- Construction equipment
- Conveyors
- Corroded fasteners
- Drilling equipment
- Engines and engine parts
- Equipment disassembly
- Firearms
- Frozen gears and cogs
- Frozen nuts and bolts
- Gearboxes
- Heat exchangers
- Hinges and pins
- Hitches
- Locks
- Lugs and lug nuts
- Pillow blocks
- Piping
- Plumbing fixtures
- Printing presses
- Pulleys
- Pumps
- Rivet guns
- Saws
- Screws
- Shafts
- Sliding mechanisms
- Sporting equipment
- Turbines
- Valves
- Washers
- Winches and cranes
- ...And more

KANO

INDUSTRIAL-GRADE PRODUCTS

From the makers who brought you trusted Kroil Penetrants, Kano offers a variety of chemical solutions to help you get tough jobs done faster, saving you time, money and equipment.

Not all package sizes/formats shown.

FUEL TREATMENTS & DEGREASERS

KREEN

All-In-One Gas & Oil Treatment

Kreen provides four solutions in one: improves compression, reduces oil consumption, cleans injectors and increases gas mileage. It also dissolves sludge, gum and varnish in gas and diesel engines. Kreen softens and removes excess carbon from around valve stems and piston grooves, and thoroughly cleans the entire crankcase, injectors and oil lines.

FLOWAY

Degreaser

Floway contains a powerful grease-cutting solvent that penetrates, dissolves and removes grease, tar, ink, asphalt, oil, dirt, crud, grime, carbon and gunk. Excellent for cleaning greasy equipment, engines, parts and tools, brake lines and drums. Easily washes off and doesn't attack painted surfaces. Contains no chlorinated solvents.

AVAILABLE SIZES

Kreen 1-quart liquid
Kreen 1-gallon can
Kreen 5-gallon pail ***
Kreen 55-gallon drum ***

***Additional Hazmat shipping charges

Floway 13oz aerosol
Floway 1-gallon liquid
Floway 5-gallon pail
Floway 55-gallon drum

INDUSTRIAL LUBRICANTS

PYROLUBE

High Temperature Lubricant

Pyrolube provides superior, long-lasting lubrication at temperatures up to 1359°F (700°C), and is ideal for high temperature environments that create lubrication problems. Produces smooth graphoid lubrication. Will not drip or form abrasive particles. Leaves a smooth, lubricated surface. Prevents metal-to-metal contact, reducing wear. Use on industrial furnaces and other high temperature equipment, kiln cars, conveyor systems, rotary kilns, stokers, baking and drying ovens, gears, chains, bearings, glides and more. Available as a grease or liquid. Used by the U.S. Military.

MICROIL

Precision Instrument Lubricant

For lubricating bearings and mechanisms in precision instruments, gauges, meters, clocks, micrometers, counters, controls, firearms, light machinery, office machines and other small mechanisms.

Pyrolube 1-gallon liquid
Pyrolube 5-gallon pail
Pyrolube 55-gallon drum
Pyrolube Grease 5lb tub
Pyrolube Grease 35lb tub

Microil 8oz liquid
Microil 1-quart can
Microil 1-gallon can
Microil 5-gallon pail

RUST SOLUTIONS

EXRUST

Rust Remover

Exrust is an industrial strength rust remover that penetrates and chemically reacts with rust to quickly remove it from all surfaces. Effective on all ferrous metals without harming the base steel or iron*. After treatment, any type of finish can be applied.

*Do not use on non-ferrous metals.

Exrust 16oz liquid
Exrust 1-gallon liquid
Exrust 5-gallon drum ***
Exrust 55-gallon drum ***

***Additional Hazmat shipping charge will be added.

Kroil Penetrant with Graphite #165747 (liquid)

TESTIMONIALS

“Kroil does the job so well. You have to consider the time you spend taking a broken bolt out and how much you’re going to struggle trying to get those bolts out. It pays for itself if the product does the job of getting the bolt out easily and quickly.”

– Plant Manager, Manufacturer

“We deal with a lot of situations where heat has frozen all bolts, particularly on hot box core jobs and heat treat ovens. Before Kroil, it was burn ‘em off and drill ‘em out. Now, we have a high rate of success with just Kroil and a hand impact wrench.”

– Senior Field Service Technician

“I freed a stuck brake wheel cylinder piston with Kroil Penetrant with Silicone. Just minutes after spraying it on top of the piston, it was able to be drawn out with no damage to the piston or the cylinder.”

– Auto Mechanic
